Erica,

Thank you very much for location information on sample PFTSWDUP1.

## Ex. 5 Deliberative Process (DP)

# Ex. 5 Deliberative Process (DP)

Do you have a map that indicates the zone of tidal influence for this entire region?

Thank you very much,

Andy

**Subject:** RE: The sample is

Andy,

The surface water sample number PFTSWDUP1 was collected with surface water sample PFTSW015, which was collected in Woodbury Creek, near the confluence of the Delaware River. This location is upriver from the Solvay site, but still tidally influenced. Note that one of the residential private wells located along Woodbury Creek (Clement Drive) had the highest levels of PFNA (1,500 ng/L) found in a private well near the Solvay site.

On map below: Little red dot is the sample location; Solvay site is circled in red; larger red marker is Clement Drive.

**Subject:** The sample is

Erica,

The sample is PFTSWDUP1 and is highlighted on the attached CoC sheet.

Thank you,

Andy
